

MPH Academic Performance Improvement Plan

If an MPH student has less than a cumulative GPA of 3.0 for 2 terms or more, or does not achieve the minimum grades required in the MPH program, they will need to complete an academic performance improvement plan with their faculty advisor. After the plan has been agreed to, it will be signed by the student and faculty advisor. It will be sent to the School Head of Public Health and Nutrition and MPH Administrative Director and will be filed in the student's permanent file.

Student _____ Faculty Advisor _____

Option _____ Date _____

Specific deficiencies	Plan to address deficiencies	Timeline	Consequences if deficiencies are not rectified in the specified timeline

Please attach an additional page if more space is needed.

I understand the deficiencies and applicable consequences as outlined above, and agree with the plan and timelines to address the deficiencies.
