B1.5 Team and Collaborative Efforts

2021-present

Faculty mentor for OSU Food Recovery Network

This student club works with campus dining halls and other off-campus eateries to divert food waste from landfills to community members in need. I supported students in their national application for the local chapter. I advise students regarding professional management of the organization and establishing relationships with stakeholders.

2017-2019

Community Organizer for Farm-to-School Grant-Funded Project

Collaborated with community members on Farm-to-School grant. In partnership with local middle school teachers and staff, we organized age-appropriate and accessible classroom-based nutrition education. I recruited and trained undergraduate students to develop and deliver lesson plans.

2017-2019

Community Coordinator for Service-Based Learning Requirements

Collaborated with OSU Basic Needs Center; University Housing and Dining Services; Organic Growers Club; Starker Arts Garden for Education; Linn Benton Food Share; South Corvallis Food Bank; Stone Soup Corvallis; and Lincoln Elementary School to provide experiential and service-based learning activities for students.

2013-2016

Preceptor for OSU Dietetic Internship

I provided supervised practice experiences for Dietetic Interns in collaboration with research team efforts to promote healthy eating and physical activity behaviors among communities, families, and children living in rural Oregon communities.

2010-2016

Advisory Council Member for Oregon Health & Science University Dietetic Internship

I attended meetings and contributed to program and curricular revisions.

2008-2011

Faculty Advisor for OSU Student Nutrition and Dietetics Club

I advised students regarding professional management of the organization, leadership development, and organizing community service events.

C3. Grant and Contract Support

Research – Funded Projects

Completed

Title: *OSU Food Security Assessment*
Sponsor: OSU Division of Student Affairs (\$48,636)
Objectives: 1) measure the prevalence of food insecurity among OSU students and 2) identify levels of food insecurity among minority populations at greater risk for food insecurity.
Role: Co-Principal Investigator
Dates: June 2020 – June 2021
Co-Investigator: Mark Edwards (OSU College of Liberal Arts, OSU Policy Analysis Laboratory)

Title: *Generating Rural Options for Weight-Healthy Kids and Communities (GROW)*
Sponsor: Agriculture and Food Research Initiative Grant no. 2011 68001-30020 from the USDA National Institute of Food and Agriculture, Childhood Obesity Prevention: Integrated Research, Education, and Extension to Prevent

Objectives: Childhood Obesity. (\$4.8 million)
1) to understand the rural obesogenic environment by engaging rural people in community-based participatory research (CBPR) efforts across five Western States; 2) to plan, implement, and evaluate a multi-level intervention targeting rural home, school, and community behavioral settings to promote healthful eating and increase physical activity and improving BMI among rural children in Oregon.

Role: Postdoctoral Research Associate (July 2015-September 2017); Graduate Research Assistant (June 2011-June 2015)

Dates: June 2011-January 2016

Principal Investigator: Katherine Gunter and Deborah John

Title: *Frequency of Use and Perceived Importance of Communication in Dietetics Practice*

Sponsor: Foodservice Systems Management Education Council (\$1000)

Objectives: 1) to develop and validate an instrument that measures communication skills required for dietetics and food management professionals; 2) to measure communication skills of foodservice managers and dietetic managers in clinical, public health, and business settings; 3) to explore the extent to which entry-level practitioners indicate they have learned communication skills.

Role: Principal Investigator

Dates: September 2002- June 2003

Co-Investigator: Mary Cluskey

Submitted and funded (declined; alternatively accepted current clinical assistant professor position)

Title: *Promoting Weight-Healthy Behaviors Among Elementary School-age Children: Evaluating the Role of the School Nutrition Environment*

Sponsor: USDA Agriculture and Food Research Initiative Competitive Grants Program (\$140,350)

Objectives: 1) to evaluate the reliability, validity, and utility of the School Physical Activity and Nutrition Environment Tool (SPAN-ET) nutrition component; 2) to develop resources to enhance the utility of the SPAN-ET for schools and stakeholders; 3) to create training modules to improve adoption and implementation of the SPAN-ET; and 4) to design a graduate-level course on policy, systems, and environmental influences on children's healthy eating and physical activity behaviors.

Role: Principal Investigator

Dates: September 2016 – June 2018

Mentors: Katherine Gunter and Ellen Smit (primary)
Stephanie Grutzmacher and Deborah John (collaborating)

Additional Projects

Title: Food Insecurity Among U.S. College Students
Sponsor: Multi-state research collaboration (Currently unfunded; intent to apply for grant funding following survey validation)
Objectives: 1) Develop a valid and reliable online survey instrument to be used to quantitatively measure environmental, personal, and behavioral factors associated with food insecurity among a broad sample of college students in the United States; 2) Identify nutrition intervention strategies to address factors identified via new validated survey instrument.
Role: Co-Principal Investigator
Dates: October 2019 – present
Co-Investigators: Rickelle Richards (Brigham Young University), Nathan Stokes, (Brigham Young University), Stephanie Grutzmacher (OSU), Jinan Banna (University of Hawaii), Kendra OoNorasak (University of Kentucky); Matthew Rabbitt (United States Department of Agriculture, Economic Research Service)
