

## CURRICULUM VITAE

**Joseph Anthony Catania**

ADDRESS: **Employment:**  
Oregon State University  
Waldo Hall  
Corvallis, OR 97331

TELEPHONE: (541) 602-2366 or (541) 207-3162

DATE OF BIRTH: August 9, 1951

CITIZENSHIP: U.S.A.

### Education

B.A., Psychology: University of Wisconsin–Madison, 1975

M.A., Psychology of Aging: University of Chicago, 1977

Ph.D., Adult Development and Aging: University of California-San Francisco,  
Department of Psychiatry, Human Development and Aging Program, 1987

### Awards & Honors

Awarded Earle C. Anthony Fellowship  
University of California–San Francisco, 1980.  
National Institute on Aging Trainee Fellowship, 1980-1981.

University of California Regents' Fellowships, 1982-1983, 1983-984, and 1984-1985.

Sigma Xi Scientific Research Society Award, 1982.

University of California Graduate Student Research Awards in the Social and Behavioral Sciences, 1981 and 1985.

Young Investigators Award  
Society for Behavioral Medicine, 1994.

Hugo G. Beigel Award  
Scientific Society for the Study of Sex, for scholarly contribution by research team, 1995.

Designation "Highly Cited Researcher," and inclusion in ISIHighlyCited.com<sup>SM</sup>, 2003-2007.

Charles C. Shepard Science Award, Center for Disease Control and Prevention, Assessment and Epidemiology, 2004. Nominated for demonstrating excellence in science.

Fellow, Scientific Society for the Study of Sex, 2014

## Professional Experience

2006-present	Professor, College of Public Health and Human Sciences Oregon State University Corvallis, Oregon and Professor Emeritus, University of California, San Francisco
2005-2006	Director Behavioral Methodology Core, Comprehensive Cancer Center, UCSF
2000-2006	Professor, Department of Medicine Division of General Internal Medicine University of California, San Francisco.
1998-2006	Director, Health Survey Research Unit University of California, San Francisco.
1987-2006	Investigator with the Center for AIDS Prevention Studies UCSF School of Medicine. Director Methods Core
1994-2000	Associate Professor, Department of Medicine Division of General Internal Medicine University of California, San Francisco
1986-1994	Assistant Professor, Department of Medicine Division of General Internal Medicine University of California, San Francisco
1982-1985	Psychological Research Associate. Veterans Administration Medical Center at Fresno, California Psychological Services Department
1980	Program Director University of Texas Health Science at Dallas South Western Medical School, Gerontology Program
1979-1980	Associate Program Director University of Texas Health Science Center at Dallas South Western Medical School, Gerontology Program
1978-1979	Director Legal Services for the Elderly QUINT Counties Legal Services U.S. Legal Service Corporation and Illinois State Office of Aging

## Peer Review

U.S. and International: 1990-2019

- National Science Foundation
- USAID
- Canadian Health & Welfare
- NIAID
- Economic and Social Research Council/Research Evaluation Division (Great Britain)
- NICHD (Chair, SARP 2002)
- NIMH (AIDS)
- SPIP
- ZRG1 RPHB-L

## Professional Organizations

American Association for Public Health  
American Association for Public Opinion Research  
Society for Behavioral Medicine  
Society for the Scientific Study of Sex

## Service to Professional Publications

Journal Reviewer:

American Journal of Public Health; AIDS; Health Psychology; Health Education Quarterly; Journal of Behavioral Medicine; Journal of Sex Research; Journal of Consulting and Clinical Psychology; Journal of Applied Social Psychology; Psychological Review; Psychological Bulletin; Journal of Community Psychology; Science; AIDS Education and Prevention; Journal of Preventive Medicine; Journal of the American Medical Association; American Journal of Epidemiology; Journal of Sexually Transmitted Diseases.

Special Editor and Member, Editorial Board, Journal of Sex Research, 1997-1998.  
Associate Editor, Sexually Transmitted Diseases, 1996-2010.

## Other Public Service (2004-2019)

Baseball Coach, St. Gabriel's School, San Francisco, 2004-2005.  
Track Coach, San Francisco St. Gabriel's School, San Francisco, 2003-06.  
Soccer Coach, St. Gabriel's School, San Francisco, 2004-2005.  
Basketball Coach, St. Gabriel's School, San Francisco, 2004-05.  
Jumps Coach, Track and Field, Corvallis High School, 2007.  
Conditioning Coach Basketball, Corvallis High School, 2007.  
Basketball Coach, Young Spartans 7<sup>th</sup> Grade Boys, Corvallis, 2008.  
Sprint Coach, Track and Field, Corvallis High School, 2008-2012.  
Benton County Public School Foundation, 2016-2017.  
Consultant OSU Faculty Union on COVID 19, Summer 2020.

**Courses Taught Fall and Spring**

H672: Advanced Qualitative Methods in Health Behavior (3 credits)

H699 Research Practicum: Health Promotion & Health Behavior (4 credits)

**Current Students**

Student Name	Your Role (a)	Degree Sought (b)	Major (c)	Status (d)	Anticipated Completion Date
Oyinda Osibanjo	Advisor, Dissertation Committee Chair	PhD	Health Promotion & Health Behavior	Graduated 2020	Completed
Eiman AlEissa	Advisor	PhD	Health Promotion & Health Behavior	5th Year; Dissertation Work	W 2021
Ryan Singh	Dissertation Committee Member	PhD	Health Promotion & Health Behavior	Graduated 2020	Completed
Ashley Schuyler	Advisor	PhD	Health Promotion & Health Behavior	3rd Year; Dissertation Work	S 2022
Zainab Alidina	Research Committee Member	PhD	Health Promotion & Health Behavior	4th Year; Research	S 2022
Gerald Dryer	Advisor	PhD	Health Promotion & Health Behavior	On Leave	S 2022
Sydelle Harrison	Planning Committee	PhD	Health Promotion & Health Behavior	3 <sup>rd</sup> Year	W 2024
Jacob Dilla	MPH Advisor	MPH	HPHB	Graduated 2020	
Madeline Bremel	MPH Advisor	MPH	HPHB	2 <sup>nd</sup> Year	S 2021
Dan Belong	MPH Advisor	MPH	HPHB	1 <sup>st</sup> Year	S 2022
Marissa Gamberutti	MPH Advisor	MPH	HPHB	1 <sup>st</sup> Year	S 2022

a = Mentor/ Chair/ Member/ Minor Rep/Grad. Rep

b = Honors College, URAP/URISC, MAIS, MPH, MS, MA, EdD., PhD, Post-doc

c = Major department

d = Status at end of this reporting period: (e.g. degree program filed, orals completed, thesis in progress; comprehensive exams completed, dissertation in progress, Honors College, URAP, URISC, other)

## **Current & Ongoing Research Awards and Grants**

Co-Investigator. Project Title: Developmental and structural factors in PrEP dissemination and uptake among adolescent and young adult MSM. Hallie E. Ford Center pilot funding. 2020-2021. \$12,000.00 Jonathan Garcia, Joe Catania, Peggy Dolcini, Ashley Schuyler

Co-Investigator. A community dissemination intervention to increase the reach of current HIV testing systems: An exploratory study. R34 MH120512. \$607,537.00 (direct and indirect funds) 6.1.20 – 5.31.22. HIV testing is the first step in identifying and treating HIV, but many individuals fail to get tested. In order to increase testing, it is critical to address the knowing challenges in the current HIV testing systems. In the proposed study, we will conduct formative research on an intervention to increase HIV testing through the dissemination of no-cost self-test HIV kits in a high risk community.

Principal Investigator. Translating Oral-HIV Testing to Low Income, Low Literacy Youth in Tanzania. NICHD. 2015-2017. R01 HD085780. \$648,264.00. Using a translation framework, the proposed research will examine low technology, low literacy methods of training youth to self-implement oral-SITs with high fidelity and extend our prior work on linkage-to-care among urban Tanzanian youth.

Principal Investigator. “HIV Self-Testing in African American Young MSM: A Formative Translational Study,” R21 MH105180. \$420,634.00; 5.1.15-4.30.17. The success of the comprehensive HIV prevention approach depends on identifying HIV positive persons and linking them to prevention and treatment programs. However, significant barriers to current venue-based approaches to HIV testing exist. This implementation study will examine an alternative to venue-based testing, the OraSure self-implemented testing (SIT) program (OraQuick). We will examine self-implemented fidelity among young African American MSM, investigate how program-client fit (e.g., cultural acceptability) impacts fidelity, and develop quantitative measures of key concepts that will be used in the next stage of research.

## **Prior Research Grants and Awards**

Co-Investigator. Gender informed HIV intervention development for urban African American youth. Project Period: 8/1/09-7/30/13. Total Cost (direct and indirect): \$1,329,043. Dr. M. Dolcini, Principal Investigator. National Institute of Child Health and Development 1 R01 HD061027-01.

Co-Investigator. Translation of an evidence based HIV behavioral intervention into practice. National Institute of Mental Health 1 R01 MH085502-01. Project Period: 8/1/09-7/30/11. Total Cost (direct and indirect): \$1,452,624. Dr. M. Dolcini, Principal Investigator.

Co-Investigator. Parental Knowledge of Confidential STI Services for Teens. R01-HD053408, 10/07-10/10, \$1,783,868.00. PI Mary-Ann Shafer, MD. This study will collect data on parent’s attitudes towards confidential health care for adolescents that may be needed to augment the prevention of STIs in adolescents. Dr. Catania, will direct development of study measures and provide methodological expertise.

Principal Investigator. IRBs and Ethical Issues in Psychiatric Research. NIMH R01 MHO64696-01A1. 12/03-11/08. \$1,039,295.00. *This study will conduct a national survey of IORGs and interview IRB Chair’s of IRBs that review Mental Health Related Protocols.*

Development of Outcome Measures for Men with Peyronie's Disease. Auxulium Corporation, 1/05-12/05. \$154,000. *This study will develop behavioral outcome measures to be used in clinical studies with men with Peyronie's Disease.*

Population Processes in HIV Risk Behavior and Prevalence. UARP. 11/04-12/05. \$99,990. *The proposed work would examine relatively unexplored population level processes influencing HIV risk behaviors and HIV distributions among MSM. This exploratory program of research will characterize migration patterns among MSM, will examine the effects of in-migration and changing population demographic profiles on HIV risk behavior, and examine MSM population segments that form sexual bridges to other community segments.*

Co-Principal Investigator. National Men's Sexual Health Survey. Sanofi-Synthelabo Corporation. 1/04 – 12/05. \$900,000. *This industry financed national survey will examine the prevalence of erectile and ejaculatory disorders among men with a history of urological disorders.*

Research on Transgender Populations in San Francisco. SFDPH. 1/05-12/05. \$15,000. *This work will develop a research program for the city of San Francisco on Mental Health issues among Transgender populations.*

Co-Principal Investigator. The Bolger Conference on PDE-5 Inhibition and HIV Risk. NIMH R13, \$50,000. *With Dr. Ray Rosen, this conference brought together experts on PDE-5 inhibitors and HIV risk behavior to present findings and develop recommendations for research for NIMH and NIDA. 2005.*

Principal Investigator. Sexual Trauma and HIV Risk Behaviors of Gay Men. NIMH 2 RO1 MH54320-06A1. \$1,744,757. 12/00-11/03. *This study will examine mediators of childhood sexual abuse and adult sexual risk behaviors among gay men.*

Principal Investigator. "HIV-Related Behavioral Surveillance and Seroprevalence Estimates Among Gay and Bisexual Men in California: A 2001 California Health Interview Survey Re-Interview". State Office of AIDS Grant. *The study is a reinterview of MSM who were respondents in the California Health Interview Survey (CHIS). These men will be screened for current sexual behavior.*

Principal Investigator. San Francisco Department of Public Health Contract. "HIV Incidence Study". Centers for Disease Control and Prevention, U62/CCU906255-10. *This HIV-incidence survey is a population-based, cross-sectional, and longitudinal study of MSM residing in San Francisco.*

Principal Investigator. "Survey Sampling Issues". San Francisco Department of Public Health Contract. Supplement funded by the CDC. \$152,856. 2001-2002. *This supplement will analyze data from the Urban Men's Health Study pertinent to the topic of sampling MSM, develop geographic maps of MSM residing in San Francisco, and conduct a symposium focusing on sampling MSM of color residing in large urban area.*

Co-Principal Investigator. Center for AIDS Prevention Studies, IV. Director, Thomas J. Coates. Core Support for Programs in Mental Health/AIDS Research. PAR-99-153. 09/01/01– 08/31/06. \$10,709,065. *The mission of the Center for AIDS Prevention Studies (CAPS) is to conduct theoretically based HIV/AIDS prevention research that will have scientific, programmatic, and policy impact.*

Principal Investigator. Mapping and Cost Estimates of Gay Men Survey. The State Office of AIDS contract. \$155,618. 7/00-6/01.

Principal Investigator. Building an eArchive of STD Behavioral Surveillance Measures. The State Office on STDs. \$14,000

Principal Investigator. The Urban Men's Health Study: Longitudinal Follow-up. NIMH MH54320 Competing Continuation, \$647,417. 12/98 to 12/2000.

Principal Investigator. Weighting the NABS city samples. CDC, \$40,000. 1999.

Principal Investigator. Application of Experience from the National AIDS Behavioral Surveys to Including Males in the National Survey of Family Growth. CDC/NCHS, Professional Services Contract, \$37,475, 1997-1998. *This research derived methodological data pertaining to surveys of males from the National AIDS Behavioral Methods Surveys I and II. The data will be used to enhance surveying techniques of men in the National Survey of Family Growth.*

Principal Investigator. The Urban Disease Prevention Survey HIV Home Test Pilot. NIMH 1 R01 MH54320 ATPM/CDC/ATSDR Cooperative Agreement TS235-12/12, \$109,557, 1997-1998. *This pilot study investigated the feasibility of obtaining HIV seroprevalence data through the at-home test kits mailed to participants in the Urban Disease Prevention Survey.*

Principal Investigator. The Urban Disease Prevention Survey. OAR-NIMH 1 R01 MH54320, \$114,733, 1997-1998. *This seroprevalence pilot study provides an important test of the HIV at-home test kit as an alternative to more cumbersome and costly face-to-face blood draw methods. The acceptance and return rates for 300 ethnic minority gay and bisexual men was assessed and added to those of 300 men obtained through Centers for Disease Control funding.*

Principal Investigator. The Urban Disease Prevention Survey. NIMH 1 R01 MH54320, 4 years, \$3,260,535, 1994-1998. *This study assessed HIV risk factors, HIV-disease related health practices, and AIDS-related mental health problems among gay and bisexual men (n=5,800) residing in gay neighborhoods in 10 urban areas of the United States. We conducted a probability survey of gay neighborhoods and over-sampled racial/ethnic minority gay men. This study provided detailed prevalence estimates (by social strata) of AIDS-related prevention and health practices, and mental health problems for a representative sample of gay men that is generalizable to gay/bisexual men who reside in gay neighborhoods in medium and large urban centers of the United States.*

Principal Investigator. The Urban Disease Prevention Survey. NIMH 1 R01 MH54320-02S1, 4 years, \$1,522,386, 1994-1998. *This study assessed HIV risk factors, HIV-disease-related health practices, and AIDS-related mental health problems among gay and bisexual men residing in gay neighborhoods in 10 urban areas in the United States. The supplemental study augmented the main survey with an additional 1500 respondents, using a new T-ACASI technology for validity, reliability and measurement of sensitive issues, including sexual behavior, drug use, HIV serologic status and normative behaviors such as condom use.*

Co-Investigator. Adolescent Neighborhood Crowds: A Longitudinal Study. MH57234, 4 years, \$277,440. 1996-2000. *In this study, we will evaluate the cognitive, behavioral, and biological outcomes of an intervention delivered to groups that are targeted based on social cliques and compare results with those in groups reached by standard "all comers" approach; examine hypothesized mediators of the intervention effects on the outcomes associated with the four stages of the AIDS Risk Reduction Model (ARRM).*

Principal Investigator. Family of AIDS Behavioral Surveys. NIMH 1 R01 MH51523, 3 years, \$1,744,627, 1994-1997. *This study continued the work begun by the National AIDS Behavioral Surveys to monitor AIDS-related risk factors, prevention practices, and key psychosocial variables in the general heterosexual population.*

Principal Investigator. NIA Supplement to the Family of AIDS Behavioral Surveys (1 R01 MH51523), 3 years, \$366,779, 1994-1997. This study included an older (50-75 yr) segment of the Family of AIDS Behavioral Survey. It increased our understanding of how at-risk older individuals cope with the risks of HIV, identified important prevention correlates, and expanded our knowledge of care-giving by the elderly to their kin and friends infected with HIV.

Principal Investigator. Sex and AIDS Methodology Survey-Minority Expansion. NIMH 1 R01 MH52022, 2 years, \$490,482, 1994-1996. *The Sex and AIDS Methodology Survey-Minority Expansion (SAMS-ME) added an over sample of minorities to a recently completed project, the Sex and AIDS Methodology Survey (SAMS). This study made possible an analyses of survey error among African American and Hispanic populations neglected in earlier methodological studies in survey research.*

Principal Investigator. A Longitudinal National AIDS Behavioral Survey. NIMH 1 R01 MH48642, 3 years, \$939,786, 1991-1994. *Longitudinal follow-up to the National AIDS Behavioral Surveys.*

Principal Investigator. Longitudinal Follow-up of the AMEN Cohort. NIMH 1 R01 MH48638, 2 years, 1991-1993, \$488,549. Third wave of assessment for the AMEN cohort survey of San Francisco. *This longitudinal study was based on a multiethnic household probability sample of single heterosexual adults and examines HIV seroprevalence, HIV risk behaviors, and predictors of risk behavior.*

Principal Investigator. National AIDS Behavioral Methodology Study. NIMH Centers Grant 2 P50 MH42459-06. 2 years, \$656,433. 1991-1993. *This study examined issues related to measurement error and participation bias in AIDS-related surveys, and further examined a model of recall accuracy relevant to the assessment of sexual behavior.*

Principal Investigator. AIDS Risk in a Population Based Sample of Older Americans. NIMH R01 MH46240, 2 Years, \$659,030, 1989-1991 (1992 continuation). *A national study of HIV risk factors and their correlates among individuals 50-75 years of age.*

Principal Investigator. AIDS Risk in a Population Based Sample of the U.S. NIMH R01 MH43892, 3 years, \$1,037,588, 1989-1992. *A national survey of HIV risk factors and their correlates among individuals 18-49 years of age. This study over-sampled Hispanics and blacks and contrasted urban and rural regions of the country.*

Principal Investigator. AIDS Risk in a Population Based Sample of the U.S. NIMH R01 MH43892-02S1 Competing Supplement, 1991, \$55,134. *To complete funded proposal to conduct a national survey of HIV risk factors and their correlates among individuals 18-49 years of age.*

Co-Investigator. Center for AIDS Prevention Studies. NIMH 2 P50 MH42459-06. 5 years, \$15,253,700. 1991-1996. This includes work on the “Two Cities” project (community mobilization intervention study) and being director of the Center’s Methodology Core. *The Two Cities project is an AIDS primary (HIV) and secondary (Disease Progression) intervention evaluation in Portland and Tucson using multisample cross sequential designs. As director of the methodology core I provide methodological consultation to all Center funded studies including primary projects and satellite projects being conducted by a team of international scholars.*

Co-Investigator. AIDS Risk Reduction among Black Gay Men. NIMH R01 MH43911-01A1, 4 Years, 1989, \$759,921. Thomas Coates, Ph.D., PI. *This study examined an intervention model for black gay and bisexual men based on the AIDS Risk Reduction Model developed by my colleagues and me at UCSF.*

Investigator. A Prospective Sero-Epidemiological Study of AIDS in Homosexual Men Residing in San Francisco. NIAID, N01-32519, 1983-1992, \$4,600,000 Warren Winkelstein, Jr., MD MPH, PI. *Study of the influence of social support on psychological and behavioral factors related to HIV infection.*

Co-Investigator. AIDS Risk Reduction through Substance Abuse Counseling. NIAAA AA08233, 1990-1993, \$707,361. Ronald Stall, Ph.D., MPH, PI. *This study assessed the efficacy of a special clinical intervention to reduce high-risk behavior among gay and bisexual substance abusers in group treatment.*

Co-Investigator. Measurement and Prediction of AIDS Risk in IV Drug Users. 1R01 DA6713, 1990-1993, \$621,888. David R. Gibson, Ph.D., PI. *This study assessed methods for increasing validity of self-reports of IV drug users’ high risk behaviors, examined the validity of self-reported high-risk behavior, developed and evaluated measures of attitudes and beliefs that predict high-risk behavior, and estimated predictive models of IV drug users’ high-risk behavior.*

Co-Investigator. Psychosocial Predictors of AIDS-Related High Risk Behaviors in a Multi-Ethnic Cohort of Single Heterosexuals. NIMH-NIDA Centers Grant MH42459, 4 years, \$2,000,000, 1987-1991. Stephen Hulley, MD MPH, PI. *Collaborative study of the Center for AIDS Prevention Studies. This longitudinal study is based on a multiethnic household probability sample of single heterosexual adults and examines HIV seroprevalence, HIV risk behaviors, and predictors of risk behavior. I served as project director for the Behavioral Medicine Component’s portion of the project that, in part, will test a model of risk behavior developed by my colleagues and me at UCSF.*

Co-Investigator. AIDS Prevention for Sexually Active Adolescents. NICHD R01 HD24934-01, 1988-1992, \$1,535,990. Thomas Coates, Ph.D., PI. *This study tested several intervention models directed at reducing HIV risk among adolescents. I have provided methodological expertise to this study in the form of measurement development.*

Co-Investigator. Behavioral and Psychological Consequences of AIDS Antibody Testing. NIMH R01 MH39553, 1985-1989, \$400,000. Thomas Coates, Ph.D., PI.

Co-Principal Investigator. Psychosocial Determinants of Erectile Dysfunction in an Older Clinic Population. Biomedical Research Support Grant Program, Division of Research Resources, NIH S07-RR05755, 1 Year, 1984, \$5,000. Evalyn Gendel, M.D., PI.

Principal Investigator. Developmental and Situational Determinants of Help-Seeking Activities of Young, Middle-Aged and Aged Persons with Sexual Problems. University of California Patent Fund Grant, 1 Year, 1985.

Research Associate and Statistical Analyst. Hormonal Aspects of Sexuality and Aging Project. NIH AG-01437, 1982, \$200,000, Julian Davidson, Ph.D., PI.

Project Director. Sexuality and Aging Project. Andrus Foundation Grant. \$100,000, 1979-1980, Charles B. White, Ph.D., PI.

### **Invited Lectures**

CDC, Atlanta, January 1999.  
Kinsey Institute, Conference on sexuality and aging, University of Indiana, April 1999.  
CDC Regional HIV Incidence Conference. San Francisco, July 1999  
Seventh Conference on Health Survey Research, Williamsburg, VA, 1999.  
NIH Workshop on Self-Report Measurement Methods, Washington D.C., 1999.  
Kinsey Institute, Summer Institute on HIV, Indiana University Conferences. July 2001.  
State of California Office of AIDS. Sacramento Department of Health Services, 2001.  
National Condom Conference Key-note Address (2002).  
State Office on AIDS, Sacramento CA, July, 2002.  
State Office on AIDS, Sacramento, CA, 2004.  
The Bolger Conference on PDE-5 Inhibition and HIV Risk, 2006  
EUCI Pandemic Preparedness for Utilities Western Region: Ethical Considerations, 2008  
CDC National STI Conference, 2014

### **Presentations At Scientific Meetings: 2007-2018\_**
