SUMMARY

Experienced Graduate Research Assistant with a robust background as a skilled physician and clinical research assistant, supported by over 8 years in healthcare and research. Demonstrates advanced proficiency in **R and Python for statistical analysis**, as well as extensive experience in **healthcare finance management**. Recognized for excellence in clinical practice and empathetic patient care, achieving a 5-star rating and a 98% patient success rate. Currently pursuing a career in **Applied Epidemiology and Clinical Research** to leverage medical expertise, research acumen, and analytical skills in impactful public health and clinical research initiatives.

EXPERIENCE

Graduate Research Assistant/GTA/PhD Student

Oregon State University, College of Health

2024 Corvallis, United States

- Currently overseeing health datasets and engaging in data collection processes, including surveys and observational studies.
- Conducting advanced statistical analyses using R Studio for R-based computations and Google Colab for Python-based analyses.
- Co-authoring peer-reviewed journal articles, reports, and white papers, thereby contributing to the body of knowledge in the field.
- Performing comprehensive literature reviews and systematic reviews to synthesize existing information, identify research gaps, and support evidence-based practices in epidemiology.
- Managing aspects of large projects, coordinating tasks, timelines, and resources effectively.
- Participating in the evaluation of health policies and public health programs, providing data-driven insights to inform policy recommendations.

Registrar Physician & Research enthusiast in Obstetrics & Gynecology

Lagos University Teaching Hospital

2022 - 2024 Lagos, Nigeria

- Performing the initial assessment of patients and actively participating in all aspects of patient care, including history and physical, diagnostic, and therapeutic planning, procedures, writing orders, and interactions with family.
- Carrying out surgical & non-surgical procedures under direct approval and supervision of consultants
- Has passion for teaching and has tutored medical students and intern doctors on important procedures & skills necessary for their practice as junior doctors
- Ongoing research projects on short obstetric/gynecological cases and long cases as well
- Recruited volunteers for research studies by professions, socioeconomic status and educational status.
- Assisting consultants and professors in multiple clinical research projects' analysis.
- Engaging and leading sessions in journal clubs as well as scientific paper presentations in local and international conferences under the mentorship and guidance of my trainers
- Teaching other colleagues on research methodologies

RESEARCH PROJECTS

Major Risk factors for Pre-eclampsia in Ikorodu, Lagos

I am currently working on identifiable major risk factors responsible for pre-eclampsia in pregnant women in Ikorodu Community

Case Study: Role of occupational related chemical hazards in Fetal anencephaly in Mrs A.J, Alifort Hospital, Ikorodu

Mrs A.J who works in Chemical industry had termination of pregnancy at 28weeks on account of fetal anencephaly and severe polyhydramnios

Desertation topic for MBBS 2013: Prevalence of cancer patients in Ile-Ife over the period of 10 years

It was a retrospective study on the types of cancer and number of cases had over the decade between 2003 to 2013

Timing of epidural analgesia intervention for labor pain in nulliparous women in Metro-areas of Lagos: Prospective study

We have recruiting private facilities that have the expertise of conducting the procedure in Metro-areas of the state.

Choice of surgical technique and incidence of erectile dysfunction after open prostatectomy

Working together with an associate professor of urology, we are looking at role of choice of surgical technique intraoperatively for prostatectomy and the incidence of erectile dysfunction

PASSIONS
