Other science courses completed/grade:

____________________________________________________________________

To determine your base knowledge of the medical field please respond to the following questions:

Do you understand the difference between allopathic and osteopathic medicine? ______
   If so, are you drawn to a particular path? ___________

Have you had any direct exposure to the medical field? ______________
   If so, where and when?

On a scale of 1-10, what is your personal desire to pursue medicine? ______

Aside from “wanting to help people,” why do you want to become a doctor?

What hobbies or passions do you like to pursue?

____________________________________________________________________

Have you had any international exposure? ______
   Is so where? _________________________________________________________

Thank you!
