

TRANSFER GUIDE FOR OREGON STATE UNIVERSITY

Major Offered Through:

CORVALLIS

**Chemeketa
Community College**

Nutrition (NUTR)

The undergraduate Nutrition (BS) program at Oregon State University focuses on the role of diet and nutrition in human health. Food is fundamentally important to human life, health and pleasure. Learn about the science of nutrition, the role of food and nutrition and how we can maximize our health by making better dietary choices. The future demand for food, nutrition and dietetics professionals is strong.

The field provides diverse career opportunities in healthcare organizations, community and public health, grocery stores, food systems and industry, restaurants, schools, and wellness and fitness, as well as media, communications and technology. Private practice and self-employment in the field continues to grow as graduates design new and exciting career directions.

Your Bachelor's Degree (BS) in the College of Public Health & Human Sciences

- A minimum of 180 credits are required for graduation; 60 must be upper division (300 and 400-level courses).
- A maximum of 135 credits earned at a community college may be applied toward a bachelor's degree at OSU.
- Only courses with letter prefixes and numbers above 100 can be accepted.
- Some courses can count towards your major and the Baccalaureate Core. Check with your advisor.
- Options available. See "Important Notes".
- See the OSU Catalog for a list of courses required for your major and option: catalog.oregonstate.edu
