

Early Learning HUB of Central Oregon

Purpose:

Create aligned and coordinated systems to address disparities in outcomes for children prenatal through eight, and to ensure they receive the the supports needed to be healthy and successful in school.

GOALS

Quality early learning environments for priority populations and seamless transitions to kindergarten

Shared Outcomes

- Increased number of early learning providers who are actively participating in SPARK
- Increased number of early learning providers receiving training, and remaining in the region serving priority populations
- Increase in shared expectations for kindergarten readiness between early learning and K-12 professionals.
- Increased early registration

Increased access to early health and education services for priority population families

Shared Outcomes

- Increased engagement with families where they live
- Increased knowledge and referrals to resources through Housing Managers

Kindergarten Readiness

Healthy and Supported Families

Expanded coordination of home visiting system

Shared Outcomes

- Increase in families visited
- Increase in knowledge and skills of home visiting workforce

Closed-loop referral system for developmental screening

Shared Outcomes

- Earlier detection and intervention for children who need services
- Increased follow-through and shared results for developmental screening

Additional Collective Initiatives supported by the Early Learning Hub:

Kindergarten Readiness, led by the Central Oregon Health Council

TRACE's, led by United Way
